HANDMADE TILE

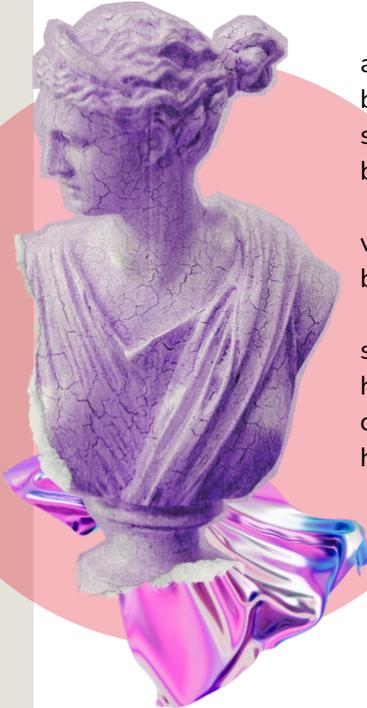

ÇİNI

Handmade ceramics; It goes through a long production process where manual labor is used in every stage of production. It also adds a modern touch to the survival of traditional handicrafts.

The products are a reflection of the craftsman's mastery and creativity. Each piece is actually a work of art.

The harmony of colors and shapes makes each ceramic tile a part of a story. When you look at a tile, you can feel the labor and passion underlying it...

All our tile products can be painted in accordance with the RAL code and desired colors.

El yapımı seramikler; Üretimin her aşamasında el emeği kullanılan uzun bir üretim süreci geçirir. Geleneksel el sanatlarının yaşatılmasına da modern bir dokunuş katar.

Çini karolar, zanaatkarların ustalığı ve yaratıcılığının birer yansımasıdır. Her bir parça, aslında bir sanat eseridir.

Renklerin ve şekillerin ahengi, her seramik karoyu bir hikayenin parçası haline getirir. Bir karoya baktığınızda onun altında yatan emeği ve tutkuyu hissedebilirsiniz...

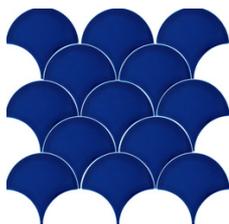

Tüm çini ürünlerimiz RAL koduna ve istenilen renklere uygun olarak üretilebilmektedir.

ATTENTION

- 1- The images of our products are arranged as close as possible to the original color tones and product textures. However, color tones may differ depending on the screen features of the computer, phone or tablet you are using.
- 2- Product calibration, tonality and quality information are included on the box and pallet labels. There may be aesthetic errors, pattern errors, millimetric size differences, slight curves and tone differences in qualities other than Quality 1.
- 3- Before laying ceramics defined as Quality '1', attention should be paid to the tonality and size marks on the box. It should be visually checked before laying and ceramics of the same tone and size should be used in the same area. Complaints made after laying will not be accepted.
- 4- Products within the tolerances specified in the standards in terms of size and thickness do not constitute a defect.
- 5- Rectified products should be laid with a joint gap of at least 1 mm and non-rectified products should be laid with a joint gap of at least 2 mm

DİKKAT EDİLMESİ GEREKENLER

- 1- Ürünlerimize ait görseller, orijinal renk tonlarına ve ürün dokularına en yakın şekilde düzenlenmiştir. Ancak kullanmakta olduğunuz bilgisayar, telefon veya tablet ekran özelliklerine bağlı olarak renk tonları farklılık gösterebilmektedir.
- 2- Ürün kalibre, tonalite ve kalite bilgileri kutu ve palet etiketlerinde yer almaktadır. 1. Kalite dışındaki kalitelere estetik hatalar, desen hataları, milimetrik ebat farklılıkları, hafif bombe ve ton farklılıkları olabilir.
- 3- Kalite '1' olarak tanımlanan seramikleri döşenmeden önce kutu üzerindeki tonalite ve ebat işaretlerine dikkat edilmelidir. Döşemeye başlamadan gözle kontrol edilmeli aynı ton ve ebattaki seramikler aynı alanda kullanılmalıdır. Döşendikten sonra yapılacak şikayetler kabul edilmez.
- 4- Boyut ve kalınlığı bakımından standartlarda belirtilen toleranslar içerisinde olan ürünler kusur teşkil etmez.
- 5- Rektifiye ürünler en az 1mm rektifiyesiz ürünler en az 2mm derz boşluğuyla döşenmelidir
